*KEY*

Do you want to know my home phone number? I don't know if I should give it out to just anyone. Are you going to sell it to some third party? I get all these calls from all over the country. Sometimes they're trying to sell me things. Sometimes it's just dead air. Sometimes there's a real person on the line. Sometimes it's a robot. Can I trust you not to give my information out? OK. It's 555-555-1111.

Do you need my cell phone too? That number is 555-444-0000.
